All Time Win-Loss Records Through 2010

It is time to update the All Time Win-Loss Records for the year. We have added two new teams to the mix this year, the Meade Buffaloes and Otis-Bison Cougars. Meade jumps on to the list at number 28 and Otis-Bison moves into the number 55 position. Now Meade has 869 games listed so that takes in at least 80 plus years of football where Otis-Bison only has 396 games listed as played.

Now remember this is not an exact science but we know we are close. If your school is not here get your football coach or athletic director to send it in. My list got started years ago from a National list out of Texas and from my own research. From there I have had several football coaches and athletic directors and other interested individuals send in their findings.

Some high lights that we need to talk about from the list follow. The Lawrence High Lions will be the first team in the state of Kansas to reach 700 wins the question is will it happen this year? Those Lions have a goal and need to get it done!

We have two teams that might reach the 600 win column this year, Smith Center and Dodge City. Smith Center only needs 4 more wins to reach 600 wins and I feel safe to say they will make it. Dodge City will need to win 11 games this year to reach 600 wins so the Demons must have a great season to get there which I think they are very capable of. Although the Demons and their new offence won't be quite so new to the opposing defenses, so who knows what will happen. Good luck Smith Center and Dodge City on reaching your new 600 team wins goal.

Buhler is 10 wins away from reaching the 400 win column and Buhler has been on a tear lately winning games so this goal is for sure in reach of the Crusaders. Good luck to Coach Warner and his team!

Cimarron is 9 games away from winning 300 games for their overall record but Cimarron only has 480 total games listed so I believe Cimarron already has well over 300 wins we just don't have those records farther back than about 50 years. When I was researching games for Scott City years ago I had to call the Cimarron historical society to have them look up a Scott City vs Cimarron game score for me from the 1940's. Cimarron won that game 75-0 but the Scott City newspaper had refused to print the score since the game was so lopsided. It was just turnabouts is fair play since Scott City had defeated Cimarron 94-0 several years before that. So we know Cimarron has many many more wins.

Salina South could also reach the 200 win column if they would win 7 games this year. Hopefully the Cougars will get that goal accomplished.

If any other media outlets would like to use this information that is fine with me but please give me some credit and tell the folks where you found it. I always liked math in school and have always had a love of history also. Best wishes to all the teams in Kansas.

I hope you enjoy the list.

<u>Team</u>	<u>Wins</u>	<u>Loss</u>	<u>Ties</u>
