

	<p>March-April Fertilome All Seasons Crabgrass Preventer</p> <p>This is the Sticker Stopper you have heard us talk about for years. Grassy sandbur, crabgrass, foxtail, henbit, spurge are just some of the weeds this product stops. This stuff lasts for about 6 months, most preventers last about 2 months. This is not the least expensive product on the market but if you want something you know works and is what all other crabgrass preventers are compared to then this one is for you! Apply dry and water in. Simple as that.</p>	
	<p>Late MAY-June Fertilome Pro Green</p> <p>Fertilome Pro Green has nitrogen, iron, sulfur and other minor nutrients. Pro Green is perfect for our high alkaline and high pH soils. This is my all time best selling fertilizer. You can use it on the lawn and trees, shrubs, flowers, vegetables, roses anything that grows in the ground! As we approach June 1st now is the time to apply Pro Green along with a bag of Season Long Grub control. Put on one then the other and start the water.</p>	
	<p>Late May-June Hi-Yield Grub Free Zone</p> <p>Just when you think your yard looks great in the summer is when almost overnight the yard starts to die. Huge patches of the turf can just be lifted out because the turf has no roots. The problem is you don't know this until the day the turf just dies. We can easily take care of this problem by the application of the Season long grub control in early summer. We have it <u>on sale now!</u></p>	

Spring Lawn Care Program!

 Checkbook and Cash.
 We do not take
 debit or credit cards!**

Word of Mouth is Best!
 May we ask you to copy this paper and give it to someone who you think might like to visit our greenhouse? These plants are grown with love by your neighbor and friends and we want them to go home to really great gardens. Thank you.
