Fertilome & The Green Haus Do-it-Yourself

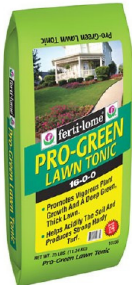

# Spring Lawn Care Program

The Fertilome and The Green Haus Do-it-Yourself lawn care program is guaranteed and will give you months of worry free enjoyment. Each bag will take about 15 minutes to apply. The dates are listed so there is no worry about when to do this or that. Any questions can be directed to Tim at The Green Haus. Are you looking for ways to cut your expenses? Isn't it about time you took control of your lawn care?

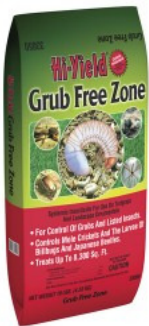

### March-April Fertilome All Seasons Crabgrass Preventer

This is the Sticker Stopper you have heard us talk about for years. Grassy sandbur, crabgrass, foxtail, henbit, spurge are just some of the weeds this product stops. This stuff lasts for about 6 months, most preventers last about 2 months. This is not the least expensive product on the market but if you want something you know works and is what all other crabgrass preventers are compared to then this one is for you! Apply dry and water in. Simple as that.

### Late MAY-June Fertilome Pro Green

Fertilome Pro Green has nitrogen, iron, sulfur and other minor nutrients. Pro Green is perfect for our high alkaline and high pH soils. This is my all time best selling fertilizer. You can use it on the lawn and trees, shrubs, flowers, vegetables, roses anything that grows in the ground! As we approach June 1<sup>st</sup> that is the time to apply Pro Green along with a bag of Season Long Grub control. Put on one then the other and start the water.

### Late MAY-June Hi-Yield Grub Free Zone

Just when you think your yard looks great in the summer is when almost overnight the yard starts to die. Huge patches of the turf can just be lifted out because the turf has no roots. We can easily take care of this problem by the application of the Season long grub control in early summer. The June bug flying around in late May and June is laying eggs in your yard and about 30 days later is when the egg hatches and turns in to that grub. The smaller the grub the easier to kill. That is why we apply it about June 1<sup>st</sup>. We have it on sale now!
