

Late May Lawn Application

Fertilome Pro Green has nitrogen, iron, sulfur and other minor nutrients. Pro Green is perfect for our high alkaline and high pH soils. This is my all time best selling fertilizer. You can use it on the lawn and trees, shrubs, flowers, vegetables, roses anything that grows in the ground! As we approach late May early June it is the time to apply Pro Green along with a bag of Season Long Grub control. Put on one then the other and then start the water. Season long grub control on sale now!

Root Stimulator

Over the past years we have told you about all kinds of new products at the Green Haus. But we also still have some of our good old standby products that never go out of style like *Fertilome Root Stimulator*. Use every time you plant but especially with tomato plants.

kansasprefootball.com/Green%20Haus.htm

The Green Haus webpage will have up to date articles and other important information.

Grass Killer!!!

Hi-Yield Grass Killer is used in the flower bed to kill all wild grasses. Any type of grass will slowly die once sprayed with this product. We use it on all our flower beds to stop bluegrass from creeping in. We sell a lot of it to stop Bermuda grass from creeping into the flower bed. This Hi-Yield Grass Killer can also be sprayed right on trees, shrubs, vines and vegetables and not hurt them but destroy the grass you spray it on. Come get a bottle today and quit all that hand pulling!

May Hours Monday – Friday 9:00 - 6:00
Saturday 9:00 – 5:00
Sundays 1:00 – 5:00

Green Tree Pro

Is your tree yellow and look sick? These yellow trees are all around town but they are not supposed to be yellow in the spring. Drill a few holes in the trunk of the tree and inject the iron into the tree and then start the water.
